Zomato vs Swiggy : Rating Distribution

Swiggy: Rating Distribution

Zomato:Rating Distribution

Executive Summary: Rating Behavior Analysis

Peak Satisfaction (4.0 Stars): Zomato displays a higher concentration of top-tier average satisfaction, peaking aggressively at the 4-star mark with **64.93%** of its market, compared to Swiggy’s more distributed **51.81%**.

Platform Convergence: Both platforms show an almost identical distribution when normalized to a whole-number scale. Restaurants on both Swiggy and Zomato are overwhelmingly clustered in the middle tiers, with **92.31% of Swiggy venues** and **92.02% of Zomato venues** sitting squarely between a 3.0 and 4.0 rating.

Premium Scarcity (5.0 Stars): Achieving a perfect 5.0 score is equally rare across both food delivery giants, accounting for just **7.63% on Swiggy** and **7.55% on Zomato**. This indicates that despite underlying structural differences in raw data collection, customer sentiment ultimately standardizes into a mirroring pattern across both
